

Alfonso Avila

IT Support Engineer | Infrastructure & Platform Support

Target roles: Technical Support Engineer · Platform Support Engineer · Cloud Support Engineer · Backend Java Developer (Entry-Level)

Anaheim, CA | 801-921-2118 | alfonsoavila0479@gmail.com | linkedin.com/in/alfonso-avila-41981b191 | github.com/fonzyg | goldfish-app-lswlx.ondigitalocean.app

PROFESSIONAL SUMMARY

IT professional with 6 years of experience in infrastructure support, data center operations, and enterprise technical support across Linux and Windows environments. Skilled in networking fundamentals (routers, switches, LAN/WAN, DNS, DHCP, VLANs), API troubleshooting (Postman, JSON, XML), and SQL. CompTIA Security+ certified. Currently completing a Bachelor's in Software Development and building backend engineering skills in Java — OOP, collections, generics, exception handling, and streams — to move into backend-adjacent roles such as platform support, cloud support, or entry-level backend development.

CORE SKILLS

Infrastructure & Systems	Linux and Windows administration/troubleshooting, data center operations (installs, rack-and-stack, hardware replacement), Active Directory, virtualization basics (Hyper-V, VMware).
Networking	Routers, switches, LAN/WAN, DNS, DHCP, VLANs, basic network security, network documentation and troubleshooting.
API & Support Tooling	Postman, REST API troubleshooting, JSON, XML, log review, incident ownership, customer communication, escalation to engineering/Tier 3.
Backend Development <i>(in progress)</i>	Java — OOP, Collections, Generics, Streams, Exception Handling. SQL coursework ~80-85% complete. Currently expanding into Spring Boot, concurrency, and REST API design.

PROFESSIONAL EXPERIENCE

Data Center Technician <i>B-612 — West Jordan, UT</i>	Mar 2024 - Present
- Install, configure, test, troubleshoot, and maintain server hardware and supporting data center infrastructure. - Support Linux cluster environments and network components — switches, routers, hubs, bridges — during installation and troubleshooting work. - Participate in larger installation efforts, coordinate with technical teams, and support documentation and contingency planning.	
Technical Support Engineer II, API Integration <i>NICE CXone — Remote / UT</i>	Oct 2021 - Mar 2024
- Troubleshoot enterprise customer API issues by reviewing API calls, timestamps, request/response payloads, JSON, XML, and JavaScript. - Replicated customer issues, isolated scripting and integration errors, and escalated complex cases to R&D/Tier 3 as needed.	
IT Support Engineer I, Level 4 <i>Amazon.com Services LLC — UT</i>	Jun 2020 - Jun 2021
- Provided technical support for computer hardware, operating systems, and network connectivity across Windows and Linux environments. - Solved support problems without predefined SOPs while maintaining clear documentation through resolution.	
Client Response Services / Helpdesk Agent <i>Goldman Sachs — UT</i>	Aug 2019 - Jun 2020
Handled end-user queries via phone, email, and chat; coordinated with engineering teams and product owners to resolve issues end to end.	
Technical Support Engineer <i>Symantec — UT</i>	Feb 2018 - Aug 2019
- Supported Symantec Messaging Gateway for enterprise customers, including messaging security, threat detection, and SSH-based troubleshooting. - Recommended Symantec Messaging Gateway installations in Hyper-V and VMware environments.	

Earlier Experience: Client Support Technician, Sumaria System (2017-2018) · Service Desk Agent/Computer Operator, Spear Inc (2016-2017) · Technical Support, Inthinc (2014-2015).

PERSONAL PROJECTS — SELF-DIRECTED LEARNING

OakVault — Java · Spring Boot · React · JWT · PostgreSQL/H2
Cybersecurity deception platform built to apply Java/Spring Boot concepts — decoy vaults, flood lockouts, PDF/SIEM export; live at oakvaultcyber.com.
AAA IT Service Toolkit — Node.js · Express · Supabase · Stripe
Quote, booking, payment, and admin portal built for a Utah data center contractor; Stripe checkout and automated email alerts.
Mom's Clothing Biz — Python/FastAPI · React/TypeScript · Docker
E-commerce storefront with transactional checkout and a hand-built SQL schema.

EDUCATION

Bachelor in Software Development Western Governors University — Salt Lake City, UT	Expected Dec 2025
High School Diploma Timpanogos High School — Orem, UT	May 2007

CERTIFICATIONS

CompTIA A+ (2016) · CompTIA Network+ (2016) · CompTIA Security+ (2017) · CompTIA Linux+ (2017) · LPIC-1: System Administrator (2017)
